

Courses and instructors to develop your potential.

Live online, on demand, face to face.

Confluence Advanced Training

Are you already a Confluence user, yet you want to get up to speed on best practices to master macros, create templates, manage spaces, configure access rights and encourage adoption? This advanced Confluence course has you covered, offering you all the know-how you need to become a smart user as well as a savvy Confluence administrator. We'll make sure you're a master at configuring and maintaining Confluence. We'll also teach you everything you need to know around apps and integrations at the global and space levels. Prerequisite - Prior knowledge and working experience of Confluence (the prerequisites are covered in our Confluence in Action training course).

What will I learn?

LESSON 1

Governance of a wiki and best practices Wiki patterns
The 12 key concepts to ensure good Confluence adoption
Gardening Archiving
